DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 – 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohno (US 6,490,024).

Ohno discloses a supplying apparatus having a plurality of magazines (50, 52, 54) having therein a recording paper roll (48); each magazine has a cutting device (64, 66, 68) and conveyor rollers. The magazines may be finely adjusted by shifting or may be capable of a large lateral shift by a positioner, that is not shown. (See column 5, lines 36-65).

Allowable Subject Matter

4. Claims 4 – 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose a magazine stand and fixer.

Art Unit: 2851

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Oka et al. (US 6,146,029) disclose magazine on a stand or I-shaped rail.
